THERM-IC

The history of Therm-ic begins with a declaration of love - to the world's most beautiful sport: skiing.

Back in the 70s, our founders were tired of hands and feet that refused to stay warm. Being cold is uncomfortable, annoying, painful and it can ruin a perfect day of skiing. So, they developed and improved a heated insole that could be used in any ski boot - or everyday shoe - and the Therm-ic brand was born.

Over the years, Therm-ic has become recognized across the world and our portfolio of patented products, for sports and leisure, as well as working shoes has grown.

The growth led to many things like permanent warmth for the hands and feet, insulation for the entire body and care products. In addition to products running on batteries or via Bluetooth, Therm-ic created environmentally friendly, non-electronic solutions as well.

Being cold is now a thing of the past.

RANGES

SKIING ACTIVITIES

Make the most of your winter sporting activities with our Skiing Activities range. Our socks, gloves and soles are technical, breathable and lightweight – they keep you warm and comfortable while skiing.

WINTER ACTIVITIES

There is no better way to spend time with your family than on a skiing holiday. But when the cold bites, it's not as much fun. The Winter Activities product range will quickly warm you up.

RANGES

ACTIVE SPORTS

Are you a keen athlete, unphased by extreme conditions? Active Sports products are breathable and lightweight, supporting you in all your sporting activities, whatever the weather.

EXTREME COLD

For lovers of high altitude expeditions, for those who embrace the cold or for the unconverted... the Extreme Cold warming range is there for you in all your adventures. Your socks, soles or gloves are warm, comfortable and contain batteries for enhanced warmth on demand...

TECHNOLOGIES

THERMO Insulation

Thermal Insulation technology is the promise of comfortable, insulated products, all designed to retain body heat and create a barrier against the cold. An essential component of this technology is the choice of materials which are soft, comfortable, warm and insulating for total well-being during your outdoor activities.

WARMER Ready

Therm-iC has created the smallest and handiest warmer on the market for easy insertion into products... Providing warmth to the tips of your fingers and toes! These innovative products come with a special pouch to hold the warmer. Browse the Warmer Ready mittens and socks. Available in a range of sizes and colours, there's something for the whole family.

POWERED Heat

Premium products with up to 17 hours of heat are now a reality with the range of heated products. Our ever-expanding range includes socks, gloves and insoles. The new technology consists of a single button to adjust the heat setting, and a new USB charger for a longer life.

HEAT CONTROL

Treat yourself to a complete solution and connect your Therm-ic products to your phone!

With our batteries' new Bluetooth® function and the **Therm-ic Heat Control** mobile app, you can check and adjust the heat setting for your socks, insoles and gloves in real time using your smartphone. You can also link your product's performance to your activity, i.e. skiing, hiking, trail activities, running, mountaineering, trekking, etc.

Share Therm-ic with your friends and family! The **Therm-ic Heat Control** app allows you to add and manage up to four user profiles and four Therm-ic heating products. The Bluetooth® function is wonderfully convenient and makes your batteries easier to use.

- Free app
- Suitable for use with Smartwatch iOS & Android
- Works with Therm-ic S-Pack, C-Pack and I-Pack Bluetooth® batteries

HOW DOES IT WORK?

Check out our video with all the instructions to properly use the product.

THERM-IC
INSIDE

Therm-ic Inside is the official partner of major sports brands. Therm-ic has worked alongside manufacturers of sporting goods and other major brands for several years on the integration of heating systems into their products at the early stages of the production chain. These brands have thus drawn on Therm-ic know-how and technology to boost their customers' well-being.

WARMTH SOURCES

WINTER ACTIVITIES

ERGONOMIC WARMER

WARMER  Ready

WARMER BOOST

(box of 20 pairs) T31-0400-010

(box of 5 pairs) T31-0400-011

Ideal in cold weather when you urgently require a high heat level to warm up. The WARMERS BOOST heating pad provides high heat for several hours.

WINTER ACTIVITIES

ERGONOMIC WARMER

WARMER Ready

The Custom Warmers

are smaller for easy insertion and improved hold inside the pouch of your Warmer Ready Socks or Warmer Ready Mittens. Non-toxic, odourless and ecological, they can be used during all of your sport or leisure activities. When the packaging is opened and the warmer comes into contact with the air, it reacts and begins to heat up in just a few minutes. They work using completely natural ingredients (water, salt and activated carbon) meaning you can throw them out with your household waste.

Have a fantastic day of skiing!

The warmers provide up to 4 hours of heat.

- Warmer dimensions: 60 x 80 mm
- Up to 4 hours of heat
- Handy shape
- Odourless and ecological with completely natural components
- Reversible and non-sticky
- Single use

CUSTOM WARMERS

ERGONOMIC WARMER

WARMER Ready

POCKET WARMERS

(box of 20 pairs) T31-0200-010
 (box of 5 pairs) T31-0200-011

Practical outside, these hand warmers are the perfect companions for all outdoor activities. Simply open the packaging and place the warmers in the pouch. A pleasant heat will be felt in just a few minutes and last for up to eight hours.

TOE WARMERS

(box of 20 pairs) T31-0100-010
 (box of 5 pairs) T31-0100-011

Specially designed for toes, these warmers fit the shape of the foot perfectly. The Toe Warmers are ultra-thin and suitable for any type of outdoor activity. Simply open the packaging and stick the warmers to the socks in the forefoot area. The warmer will begin to heat up very quickly and stay warm for up to six hours.

COLD HANDS?

HANDS CHALLENGE COMPARISON

By their very nature, the fingers receive less blood than the rest of the body. Fingers are slim, particularly in women, with virtually no fat or muscle and a blood flow speed 1000 times slower than at the centre of the body. Fingers are much more sensitive so when exposed to the cold without protection or insulation, you'll soon feel pain.

WITHOUT THERM-IC

WITH THERM-IC

THERM-IC THERMO TRANSFER TECHNOLOGY: KEEPS THE FINGERS WARM.
Therm-ic gives you what nature can't. Therm-ic products will gently warm your fingers, restoring the necessary blood flow for ultimate sensation and well-being.

WARMER READY MITTENS

WARMER  Ready

Mittens to quickly and easily warm your hands.

Warmer Ready mittens are designed with a zip pocket on the side. This allows you to insert your Custom Warmers for a better fit and better heat conservation.

The pocket is made with heat-reflective fabric at the top to keep the heat in the glove, and a thin fabric at the bottom for maximum heat conduction. The zip also keeps the pocket airtight.

For use with the handy Therm-ic Custom Warmers.

Available in adult and kid sizes.

- Durable Water Repellent (DWR) treatment
- Insulating hyperloft palm: insulating hydrophobic material
- Handy pouch to hold the warmer in place.
- Simple and easy to use
- Up to 4 hours of heat
- Optimised distribution of heat
- Zip fastening on the airtight pocket
- Available in 3 colours: Blue / Lime / Pink
- Includes one pair of free warmers

COLD FEET?

MUSCLE POWER AND ENDURANCE COMPARISON

WITHOUT THERM-IC, 75 % OF MUSCLE POWER AND ENDURANCE IS LOST

75 % of our muscle mass falls victim to the cold. When we begin to feel cold, the pain signal is sent to the brain and more than 90 % of available energy is used to warm up the affected muscles. The result is shivering and reduced muscle power and endurance.

WITHOUT THERM-IC

SHIVERING

REDUCED WARMTH IN THE MUSCLES

32° C
89,6° F

MUSCLES BELOW OPERATING TEMPERATURE

REDUCED ENDURANCE

REDUCED STABILITY AND PRECISION

INCREASED RISK OF INJURY

REDUCED BLOOD FLOW (1000X SLOWER)

AMPLIFIES COLD PAIN

WITH THERM-IC

NO SHIVERING

INCREASED WARMTH (UP TO 9° C)

RESTORED MUSCLE POWER AND ENDURANCE

NO COLD PAIN

WARM BLOOD REFLUX 36° C
96,8° F

REINSTATED STABILITY

ACCELERATED BLOOD FLOW (UP TO 3X FASTER)

THERM-IC THERMO TRANSFER TECHNOLOGY RESTORES MUSCLE POWER AND ENDURANCE

The THERM-IC products instantly deliver the required heat to critical areas. Muscle power is restored, blood flow stimulated and shivering ceases. With Therm-ic, you'll be back at full physical and muscular strength with a reduced risk of injury.

S-PACK BATTERIES

POWERED Heat

S-Pack batteries are suitable for use with the Therm-ic PowerSocks heated socks, providing up to 16 hours of heat. Pack comes with a USB charger, wall charger not supplied.

S-PACK 700
T41-0102-100

Our S-Pack 700 battery is thin and compact.

S-PACK 1200
T41-0102-300

The S-Pack 1200 is the most common battery used by our customers, making it the most popular among thousands of winter sports enthusiasts.

S-PACK 700 B
T41-0102-200

With the S-Pack 700 Bluetooth® battery, you can control your heat remotely using your smartphone.

S-PACK 1400 B
T41-0102-400

The S-Pack 1400 Bluetooth® battery is the most efficient in the range. With Bluetooth® technology, you can adjust the heat settings remotely using your smartphone.

What are the benefits of the USB charger?

- Fits all adapters with USB ports
- Fast charging with a 5V/2A charger
- Universal
- Easy to transport
- Easy to recharge: cigarette lighter socket, wall socket, powerbank...

CHARGER AND AC OUTLET

(incl. country-specific adapters)

SKIING ACTIVITIES

INSULATING INSOLES

THERMO  Insulation

INSULATION AIR

T24-0100-102

XS S M L XL XXL

The Insulation Air insoles offer lasting protection against the cold with their three-layer insulation concept to keep your feet warm. The memory foam creates the insulating layer of air, which is essential to all insulation. The soles also contain a rubber-based material to guarantee stability.

INSULATION 3D

T24-0100-103

XS S M L XL XXL

Warm and insulating anatomical insoles. Designed with high-quality materials, they offer the utmost comfort and good stability in your footwear. The 3D shape supports the arch and improves blood flow to keep the feet warm. Specially designed for winter sports.

EXTREME COLD

HEATED INSOLE SET

POWERED Heat

Enjoy winter exercise to the full with the Therm-ic Insoles Set.

Each Therm-ic Insoles Set includes a pair of heated insoles and 1 pair of C-pack batteries.

- Fitted with ultra-fine heating elements, the insoles diffuse constant heat for immediate well-being and an optimal foot temperature.
- The C-pack batteries provide up to 17 hrs of heat.
- Some are also fitted with the Bluetooth® function, enabling you to remote-manage your heating via smartphone.

This heated liner fits perfectly within your boot shell. The heat controls sit directly on the shin for easy access, even when skiing. It has never been easier to integrate a heating element into a ski boot.

- Optimised fit for most ski boot shells
- Easily accessible heat controls on the tongue
- Use of high-quality materials
- Three heat setting controls
- Extremely lightweight and imperceptible lithium-ion batteries for up to 19 hours of heat
- Easy access to the charging outlet

SHOE ACCESSORIES

CARE SYSTEM

Your body consumes huge amounts of energy to keep your boots and gloves dry – energy which cannot then be used to keep you warm and maintain your physical strength.

The THERM-IC CARE SYSTEMS are there to help you. With the Therm-ic concepts, your shoes and gloves will dry overnight to prevent your body from unnecessarily wasting energy. The THERM-IC CARE SYSTEMS REFRESHER product also prevent the growth of the bacteria responsible for unpleasant smells. By the morning, the natural freshness of your shoes and gloves will be restored.

SHOE DRYER

CARE  System

Use the Therm-ic Care systems after your sporting activity.

The hygiene devices prevent the development of bacteria and germs while maintaining optimum heat inside your shoes. In just a few hours, ski boots and sports shoes will be dry, heated and ready for use.

REFRESHER V2
